## RoHS STATEMENT

Dear Valued Customer,

In response to your inquiry, the following is Kirk Key Interlock's statement on product compliance with the European Union's RoHS regulations. This statement applies to products from the Kirk Key Interlock Company.

Kirk Key Interlock's products do not contain any of the 10 listed substances at or above the maximum allowable limits given in the Restriction of Hazardous Substances (RoHS recast) directive 2011/65/EU as amended by 2015/863/EU. This statement is based on information from our suppliers.

There should be no restriction on the recycling of any electrical or electronic equipment due to any contained Kirk Key Interlock's products under the terms of Directive 2012/19/EC "Waste from Electrical and Electronic Equipment (recast)."
